### I. JUSTIFICATION.

The establishment of the following criteria Intends to norm the authorization of granting of scholarships to the institution's workers who wish to study any of the academic programs that CETYS offers, without neglecting their responsibility at work.

A form of establishing a mechanism is sought, one that procures the fair and equitable distribution of time, which will promote personal and professional development among the workers, while assuring that the jobs and responsibilities they have to perform as part of the commitment at work are not neglected or damaged.

This leads us to propose a series of guidelines for granting the authorizations here mentioned, which will be granted to those who fulfill with the following criteria:

5. The Directors of Areas, Colleges and Schools, as well as Heads of Departments, can grant authorization to study within their working schedule, with their commitment and responsibility.

In order to do so, the fact that workers will preferably choose a program that has direct relation with his job will be taken as a base. With this focus, we seek to fulfill the purpose of improving the worker's capability and work skills in this Institution, as well as their personal and professional development.

6. Permits must be renewed each time the worker begins a new period or study cycle, as long as the following conditions are fulfilled:
